

Heileurythmie-Ausbildung Dornach
Medizinische Sektion am Goetheanum
Freie Hochschule für Geisteswissenschaft

Modular Eurythmy therapy training at the Goetheanum

for doctors, medical students and interested guests (eurythmy therapists,
therapists, naturopaths, pharmacists ...)

- Every healing substance is a calming process. Conversely, how can you convert the medication into motion, into moving processes and thus support these healing powers?
- On the basis of the Eurythmy therapy course and the parallel medical course, we want to move and explore such questions together ...
- Two-year training with 9 modules and the final certification course.
- Entry possible at any time. Anyone who has attended all modules can take part in the final course.
